

Features

- Range of backsets available
- Locks accept standard 1⁵/₃₂" mortice key or thumbturn cylinder
- Faceplate finish SAA
- Stainless steel laminated lockbolts

Functionality

Deadlocks are available in both bar and hookbolt versions. The locks provide security deadlocking for a variety of aluminium doors including swinging and sliding applications.

The hookbolt is constructed from stainless steel and is a 5 ply laminated construction, with the centre core case hardened, complete with hardened roll pin to resist hacksaw attack.

All locks are designed to accept standard round mortice cylinders or thumbturns.
